

Detector coils | MDS 3095-SA

- MDS 3095-SA detector coil 950 mm
- For monitoring conveyed material on transport and conveyor belts
- Coil for metal detector system for the protection of cutters, grinders, rollers and crushers against metal parts in the conveyed material
- Robust design guarantees high stability
- All-weather design - suitable for outdoor use

Type A

TYPE	MDS 3095-SA
Product ID	P81056
Coil type	A
Ambient temperature	-25 ... 70 °C
Material housing	aluminium plate, PBT
Protection [EN 60529]	IP 67
Electrical connection	3 m PUR cable with cable plug
