

## Description

The result of the long-standing expertise of Pizzato Elettrica in the creation of position switches, the NA, NB, NF series achieve the highest standard of flexibility and depth of range present today on the pre-wired switches market. Configurable, adjustable, pivotable and, not least, customisable with special cables or custom wiring - these are features that today make these series unique in the European panorama, ideal for easily providing our customers with customised switches.

## Switches with connectors

The new fundamental feature of this series of pre-wired switches is that the switch body and the wired connector are separated.

Using the connector the end-user can replace a product on field without having to disconnect the complete wiring.

Moreover in this way it is easier to combine products with different cable types and lengths.

## Head with variable orientation

All heads can be turned in 90° steps. The new head for swivelling levers has been designed with compact dimensions so that it does not protrude over the switch profile. Therefore, it is also possible to install the switches on the wall.

## Protection degrees IP67 and IP69K

**IP69K**  
**IP67**

These devices are designed to be used in the toughest environmental conditions and they pass the IP67 immersion test acc. to EN 60529. They can therefore be used in all environments where maximum protection degree of the housing is required. Due to

their special design, these devices are suitable for use in equipment subjected to cleaning with high pressure hot water jets. These devices meet the IP69K test requirements according to ISO 20653 (water jets with 100 bar and 80°C).

For switches with swivelling lever, the lever can be fastened on straight or reverse side maintaining the positive coupling.

In this way two different working planes of the lever are possible.

## Reversible levers

## Adjustable levers

For switches with swivelling lever, the lever can be adjusted in 10° steps over the entire 360° range.

The positive movement transmission is always guaranteed thanks to the particular geometrical coupling between the lever and the revolving shaft as prescribed for safety applications by the German standard BG-GS-ET-15.

## Orientable cable outputs

The connector with cable is provided with a cavity to allow cable bending up to 90°.

In this way a flush wall mounting is also possible as well as an easier adjustment of the cable to the supporting flange.

## Positive opening contact blocks with 1, 2, 3 or 4 poles

These series of contact blocks are versatile and compact. They have the same dimensions of the previous versions, but now it is possible to have up to 4 different contacts which are galvanically separated and provided with positive opening (NC contacts).

The allowed standard combinations are: 1NO+1NC, 2NC, 1NO+2NC, 2NO+2NC. Other combinations available on request.

The contact blocks have been designed so that they keep the same pin assignment on the connector independently of the action type (slow or snap action) and the number of contacts. In this way, the same cables with connector can be used for units with slow action and snap action as well.

## Unidirectional heads

All switches with swivelling lever are supplied with a selector for choosing the lever operating direction.

The following operations are possible: right/left (standard factory setting), only from the right or only from the left. The operating direction can be selected by rotating the dedicated ring mounted on all heads of this kind.

## Increased or reduced actuating force

For actuators with swivelling lever, versions with increased or reduced actuating force are available upon request, in order to have a switch perfectly tailored for the application. For further information contact our technical department.

## 90° redirection for actuators

This component highly extends the application possibilities of this product range.

All the actuators that can be attached directly to the body of the switch can also be fastened on this transmission, thus making feasible applications and positioning of the switch that were previously impossible. The redirection piece can also be used in case of heads for swivelling levers. Although possible, the use of multiple transmissions in series is not recommended.

## Reversible housing

Thanks to the shape of the fixing holes and of the switch body, as well as the possibility of rotating the head, make this switch perfectly symmetrical.

If a switch with cable output on the left (since the connector cannot be rotated) is required, it is possible to rotate the complete device by maintaining the final position of the actuator unchanged.

## Extended temperature range

# -40°C

These devices are also available in a special version suitable for an ambient operating temperature range from -40°C up to +80°C.

They can therefore be used for applications in cold stores, sterilisers and other equipment with low temperature environments. The special materials used to produce these versions retain their characteristics even under these conditions, thereby expanding the installation possibilities.

## Adjustable levers with anti-unscrewing washer

In some applications during the installation of the switches problems are encountered due to the variability of the fastenings and the folds of the structural work.

In other cases, small finishing adjustments are required due to the application. Nearly all swivelling levers for switches of the NA, NB and NF series can be adjusted in 1 mm steps along the switch length.

This feature, combined with the additional possibility of the radial adjustment of the actuator, provides the installer with a never before achieved flexibility in the final adjustment of the product.

All this while maintaining the positive geometric locking between lever and swivel shaft as prescribed for safety applications.

## Switch components available separately

This product series has been provided with a modular design so that single parts can also be ordered separately. This is an asset both for distributors and for final customers of electrical material in the procurement of spare parts as well as for custom combinations.

**NA B110BB-DN2**    **NA B11000**    **VN AA0BB**    **VN CM11DN2**

## M12 connectors

All contact configurations are available with M12 connector both with two contacts (with 5-pin M12 connector) as well as 3 or 4 contacts (with 8-pin M12 connector). With exit direction below or to the right, these make application in narrow spaces possible, as, with the simple rotation of the switch, the reversible housing also easily allows the exit direction to the left. The M12 connector is also available at the end of the cable, whose length can be tailored to the customer, and the cable can be bent at 90°, allowing installation on walls.

## AMP connectors

Furthermore, AMP connectors for 2-contact versions are available too. These connectors, specially developed for the automotive industry, are immune to vibration due to the quick coupling.

## Selection diagram for item combinations of the NA-NB series

### Code structure

**Attention!** The feasibility of a code number does not mean the effective availability of a product. Please contact our sales office.

article      options

**NA B110AB-DN2 GR7T6W5**

#### Housing

**NA** metal, hole spacing 20 mm (standard)

**NB** metal, hole spacing 25 mm

#### Contact block

**B11** 1NO+1NC, snap action (standard)

**B02** 2NC, snap action (standard)

**B12** 1NO+2NC, snap action (standard)

**B22** 2NO+2NC, snap action (standard)

**BA1** 1NO+1NC, snap action, change-over (available with M connector only)

**G11** 1NO+1NC, slow action (standard)

**G02** 2NC, slow action (standard)

**G12** 1NO+2NC, slow action (standard)

**G22** 2NO+2NC, slow action

**H11** 1NO+1NC, slow action, make before break

**H12** 1NO+2NC, slow action, make before break

**H22** 2NO+2NC, slow action, make before break

**L11** 1NO+1NC, slow action, close

**L12** 1NO+2NC, slow action, close

**L22** 2NO+2NC, slow action, close

Other contact blocks on request.

#### Actuator heads

**0** without head

**2** head for swivelling lever actuators

#### Actuators

**00** without actuator

**AA** short plunger

**AB** plunger

.....

#### Output direction

**D** cable or connector, right

**S** connector, bottom

#### Redirection

without redirection

**W5** 90° redirection

#### Ambient temperature

-25 °C ... +80 °C

**T6** -40 °C ... +80 °C

#### Rollers

standard roller

**R30** stainless steel Ø 10.6 mm

**R29** stainless steel Ø 13 mm

**R18** technopolymer, Ø 14 mm

**R23** stainless steel Ø 14 mm

**R7** technopolymer, Ø 18 mm

**R22** technopolymer, Ø 20 mm

**R24** stainless steel Ø 20 mm

**R19** technopolymer, Ø 22 mm

**R25** technopolymer, Ø 35 mm

#### Contact type

silver contacts (standard)

**G** silver contacts, 1 µm gold coating

#### Connection type

**0.2** cable, length: 0.2 m with M12 connector (available for DM0.2 versions only)

**2** cable, length: 2 m (standard)

**5** cable, length 5 m (other cable lengths available on request)

**K** integrated connector

#### Cable or connector type

**N** PVC cable IEC 60332-1 (standard)

**G** PVC cable CEI 20-22 II

**H** PUR cable, halogen free

**R** Rail cable EN 50306-4

**M** M12 connector

**A** AMP Superseal 1.5 connector

**Main features**

- Metal housing, right or bottom cable output
- Protection degrees IP67 and IP69K
- 4 types of integrated cable available
- Versions with M12 connector suitable for safety applications  $\oplus$
- Versions with AMP connector
- 14 contact blocks available
- 36 actuators available

**Quality marks:**

IMQ approval: CA02.04562  
 UL approval: E131787  
 CCC approval: 2013010305653520  
 EAC approval: RU C-IT.АД35.В.00454

 **$\Delta$  Installation for safety applications:**

Use only switches marked with the symbol  $\oplus$  next to the product code. Always connect the safety circuit to the **NC contacts** (normally closed contacts: see "Internal cable wiring" on page 118) as required by **EN ISO 14119, paragraph 5.4** for specific interlock applications **and EN ISO 13849-2 tables D3 (well-tried components) and D.8 (failure exclusions)** for safety applications in general. Actuate the switch **at least up to the positive opening travel** shown in the travel diagrams on page 220. Actuate the switch **at least with the positive opening force**, reported in brackets below each article, next to the actuating force value.

**$\Delta$  If not expressly indicated in this chapter, for correct installation and utilization of all articles see the instructions given on pages 211 to 222.**

**$\Delta$  Important: Switch off the circuit voltage before disconnecting the connector from the switch. The connector is not suitable for separation of electrical loads. According to EN 60204-1, versions with 8-pole M12 (2NO+2NC) and AMP connector can be used only in PELV circuits.**

**Features approved by IMQ**

Rated insulation voltage ( $U$ ): 250 Vac  
 Conventional free air thermal current ( $I_{th}$ ): 10 A (1-2 contacts) / 6 A (2-3 contacts) /  
 Protection against short circuits (fuse): 4 A (4 contacts or 5-pole M12 connector)  
 Rated impulse withstand voltage ( $U_{imp}$ ): 10 A (1-2 contacts) / 6 A (2-3 contacts) /  
 Protection degree of the housing: 4 A (4 contacts or 5-pole M12 connector) type gG  
 MA terminals (crimped terminals)  
 Pollution degree: 4 kV  
 Utilization category: IP67  
 Operating voltage ( $U$ ): 3  
 Operating current ( $I_e$ ): AC15 / DC13 (with connector)  
 Forms of the contact element: 250 Vac (50 Hz) / 24 Vdc (with connector)  
 Positive opening of contacts on contact blocks B01, B11, B02, B12, B21, B22, G01, G11, G02, G12, G21, G22, L01, L11, L02, L12, L21, L22, H01, H11, H02, H12, H21, H22  
 In compliance with standards: X, Y, X+Y, X+X, Y+Y, Y+Y+X, X+X+Y, X+X+Y+Y, Zb  
 Positive opening of contacts on contact blocks B01, B11, B02, B12, B21, B22, G01, G11, G02, G12, G21, G22, L01, L11, L02, L12, L21, L22, H01, H11, H02, H12, H21, H22  
 In compliance with standards: EN 60947-1, EN 60947-5-1 + A1:2009, fundamental requirements of the Low Voltage Directive 2014/35/EU.

| NB series housing | M12 connector, right | M12 connector, bottom | AMP Superseal 1.5 connector |
|-------------------|----------------------|-----------------------|-----------------------------|
|                   |                      |                       |                             |

To order a product of the NB series, replace NA with NB in the codes shown above. Example:  
**NA B110AA-DN2 → NB B110AA-DN2**

To order a product with **M12 right connector**, replace DN2 with DMK in the codes shown above. Example:  
**NA B110AA-DN2 → NA B110AA-DMK**

To order a product with **M12 bottom connector**, replace DN2 with SMK in the codes shown above. Example:  
**NA B110AA-DN2 → NA B110AA-SMK**

To order a product with **AMP connector**, replace DN2 with SAK in the codes shown above. Example:  
**NA B110AA-DN2 → NA B110AA-SAK**

All values in the drawings are in mm

Items with code on **green** background are stock items

**Accessories** See page 197

#### Cable and M12 connector

All values in the drawings are in mm

**To order a product with cable and M12 connector:**  
replace DN2 with DM0.2 in the codes shown above. Example:  
NA B110AA-DN2 → NA B110AA-DM0.2

## NA-NB series modular metal pre-wired switches

NB series housing

M12 connector, right

M12 connector, bottom

AMP Superseal 1.5 connector

To order a product of the NB series, replace NA with NB in the codes shown above. Example:  
**NA B110AA-DN2 → NB B110AA-DN2**

To order a product with M12 right connector, replace DN2 with DMK in the codes shown above. Example:  
**NA B110AA-DN2 → NA B110AA-DMK**

To order a product with M12 bottom connector, replace DN2 with SMK in the codes shown above. Example:  
**NA B110AA-DN2 → NA B110AA-SMK**

To order a product with AMP connector, replace DN2 with SAK in the codes shown above. Example:  
**NA B110AA-DN2 → NA B110AA-SAK**

All values in the drawings are in mm

## Accessories

Packs of 10 pcs.

| Article | Description                 |
|---------|-----------------------------|
| VN DT1F | Spacer for NA and NF series |
| VF D16B | Spacer for NB series        |

By installing spacers between two switches, it is possible to have 2 or more pre-wired switches, preventing them from slipping.

## M12 female connectors with cable

For details see page 198

### Technical data:

- Polyurethane connector body
- Class 6 copper conductors acc. to IEC 60228 - mobile installation
- Gold-plated contacts (resistance < 5 mΩ)
- Self-locking ring nut
- High flexibility cable with PVC sheath suitable to be used in drag chains, acc. to IEC 60332-3 and CEI 20-22II. With polyurethane sheath on request.

## Code structure

#### Contact type

silver contacts (standard)

**G** silver contacts, 1 µm gold coating

#### Connection type

**0.2** cable, length: 0,2 m with M12 connector (available for DM0.2 versions only)

**2** cable, length: 2 m (standard)

**5** cable, length 5 m (other cable lengths available on request)

**K** integrated connector

#### Cable or connector type

**N** PVC cable IEC 60332-1 (standard)

**G** PVC cable CEI 20-22 II

**H** PUR cable, halogen free

**M** M12 connector

**A** AMP Superseal 1.5 connector

**Main features**

- Technopolymer housing, right or bottom cable output
- Protection degrees IP67 and IP69K
- 2 types of integrated cable available
- Versions with M12 connector suitable for safety applications  $\oplus$
- Versions with AMP connector
- 14 contact blocks available
- 37 actuators available

**Quality marks:**

IMQ approval: CA02.04562  
 UL approval: E131787  
 CCC approval: 2013010305653520  
 EAC approval: RU C-IT.АД35.В.00454

 **$\Delta$  Installation for safety applications:**

Use only switches marked with the symbol  $\oplus$  next to the product code. Always connect the safety circuit to the **NC contacts** (normally closed contacts; see "Internal cable wiring" on page 128) as required by **EN ISO 14119, paragraph 5.4** for specific interlock applications and **EN ISO 13849-2 tables D3** (well-tried components) and **D.8** (failure exclusions) for safety applications in general. Actuate the switch **at least up to the positive opening travel** shown in the travel diagrams on page 220. Actuate the switch **at least with the positive opening force**, reported in brackets below each article, next to the actuating force value. All applicable standards must be respected too.

**$\Delta$  If not expressly indicated in this chapter, for correct installation and utilization of all articles see the instructions given on pages 211 to 222.**

**$\Delta$  Important: Switch off the circuit voltage before disconnecting the connector from the switch. The connector is not suitable for separation of electrical loads.**

**Features approved by IMQ**

Rated insulation voltage ( $U_i$ ): 250 Vac  
 Conventional free air thermal current ( $I_{th}$ ): 10 A (1-2 contacts) / 6 A (2-3 contacts) /  
 Protection against short circuits (fuse): 4 A (4 contacts or 4-pole M12 connector)  
 Rated impulse withstand voltage ( $U_{imp}$ ): 10 A (1-2 contacts) / 6 A (2-3 contacts) /  
 4 A (4 contacts or 4-pole M12 connector) type gG  
 4 kV

Protection degree of the housing: IP67  
 MA terminals (crimped terminals)  
 Pollution degree: 3  
 Utilization category: AC15 / DC13 (with connector)  
 Operating voltage ( $U_o$ ): 250 Vac (50 Hz) / 24 Vdc (with connector)  
 Operating current ( $I_o$ ): 3 A / 2 A (with connector)

Forms of the contact element: X, Y, X+Y, X+X, Y+Y, Y+Y+X, X+X+Y, X+X+Y+Y, Zb  
 Positive opening of contacts on contact blocks B01, B11, B02, B12, B21, B22,  
 G01, G11, G02, G12, G21, G22, L01, L11, L02, L12, L21, L22, H01, H11, H02,  
 H12, H21, H22

In compliance with standards: EN 60947-1, EN 60947-5-1 + A1:2009,  
 fundamental requirements of the Low Voltage Directive 2014/35/EU.

Please contact our technical department for the list of approved products.

**Technical data****Housing**

Housing made of glass fibre reinforced technopolymer, self-extinguishing, shock-proof and with double insulation  $\square$ .  
 Versions with integrated cable, standard length 2 m. Other lengths 0.5 ... 10 m or special cables available on request.  
 Versions with integrated M12 connector.  
 Versions with 0.2 m cable length and M12 connector, other lengths 0.1 ... 3 m available on request  
 Protection degree:

IP67 acc. to EN 60529

IP69K acc. to ISO 20653

(Protect the cables from direct high-pressure and high-temperature jets)

$\geq 300$  hours in NSS acc. to ISO 9227

**Corrosion resistance in saline mist:****General data**

Ambient temperature for switches without cable: -25°C ... + 80°C (standard)  
 -40°C ... + 80°C (extended T6)

Ambient temperature for switches with cable:

See table on page 128

Max. actuation frequency:

3600 operating cycles/hour

Mechanical endurance:

20 million operating cycles

Mounting position:

any

Safety parameter  $B_{10D}$ :

40,000,000 for NC contacts

Mechanical interlock, not coded:

type 1 acc. to EN ISO 14119

Tightening torques for installation:

see page 211-222

**Electrical data**

Rated impulse withstand voltage ( $U_{imp}$ ):

4 kV

Conditional short circuit current:

1000 A acc. to EN 60947-5-1

Pollution degree:

3

**In compliance with standards:**

IEC 60947-5-1, EN 60947-5-1, IEC 60204-1, EN 60204-1, EN ISO 14119,  
 EN ISO 12100, EN 60529, ISO 20653, UL 508, CSA 22.2 No.14.

**Compliance with the requirements of:**

Low Voltage Directive 2014/35/EU, EMC Directive 2014/30/EU.

**Positive contact opening in conformity with standards:**

IEC 60947-5-1, EN 60947-5-1.

**Features approved by UL**

Utilization categories R300 pilot duty (28 VA, 125-250 Vdc)  
 B300 pilot duty (360 VA, 120-240 Vac) (1-2-3 cont.)  
 C300 pilot duty (180 VA, 120-240 Vac) (4 cont.)

Housing features type 1, 4X "indoor use only" 12.

Housing features for the version with 1-2 contacts and type N cable  
 Type 1, 4X "indoor use only"

In compliance with standard: UL 508, CSA 22.2 No.14

Please contact our technical department for the list of approved products.

## Ambient temperatures for switches with cable and electrical data

M12 connector, right

M12 connector, bottom

AMP Superseal 1.5 connector

To order a product with M12 right connector, replace DN2 with DMK in the codes shown above.  
Example:  
NF B110AA-DN2 → NF B110AA-DMK

To order a product with M12 bottom connector, replace DN2 with SMK in the codes shown above.  
Example:  
NF B110AA-DN2 → NF B110AA-SMK

To order a product with AMP connector, replace DN2 with SAK in the codes shown above.  
Example:  
NF B110AA-DN2 → NF B110AA-SAK

All values in the drawings are in mm

Items with code on green background are stock items

Accessories See page 197

#### Cable and M12 connector

All values in the drawings are in mm

#### To order a product with cable and M12 connector:

replace DN2 with DM0.2 in the codes shown above.

Example:

NF B110AA-DN2 → NF B110AA-DM0.2

M12 connector, right

M12 connector, bottom

AMP Superseal 1.5 connector

To order a product with M12 right connector, replace DN2 with DMK in the codes shown above.  
Example:  
NF B110AA-DN2 → NF B110AA-DMK

To order a product with M12 bottom connector, replace DN2 with SMK in the codes shown above.  
Example:  
NF B110AA-DN2 → NF B110AA-SMK

To order a product with AMP connector, replace DN2 with SAK in the codes shown above.  
Example:  
NF B110AA-DN2 → NF B110AA-SAK

All values in the drawings are in mm

#### Cable and M12 connector

All values in the drawings are in mm

#### To order a product with cable and M12 connector:

replace DN2 with DM0.2 in the codes shown above.

Example:

NF B110AA-DN2 → NF B110AA-DM0.2

Contact type:

**R** = snap action  
**L** = slow action

Contact block

M12 connector, right

M12 connector, bottom

AMP Superseal 1.5 connector

To order a product with **M12 right connector**, replace DN2 with DMK in the codes shown above.  
 Example:  
 NF B110AA-DN2 → NF B110AA-DMK

To order a product with **M12 bottom connector**, replace DN2 with SMK in the codes shown above.  
 Example:  
 NF B110AA-DN2 → NF B110AA-SMK

To order a product with **AMP connector**, replace DN2 with SAK in the codes shown above. Example:  
 NF B110AA-DN2 → NF B110AA-SAK

All values in the drawings are in mm

## Accessories

Packs of **10 pcs.**

| Article | Description                 |
|---------|-----------------------------|
| VN DT1F | Spacer for NA and NF series |
| VF D16B | Spacer for NB series        |

By installing spacers between two switches, it is possible to have 2 or more pre-wired switches, preventing them from slipping.

## M12 female connectors with cable

For details see page 198

### Technical data:

- Polyurethane connector body
- Class 6 copper conductors acc. to IEC 60228 - mobile installation
- Gold-plated contacts (resistance < 5 mΩ)
- Self-locking ring nut
- High flexibility cable with PVC sheath suitable to be used in drag chains, acc. to IEC 60332-3 and CEI 20-22II. With polyurethane sheath on request

## Code structure

**Attention!** The feasibility of a code number does not mean the effective availability of a product. Please contact our sales office.

To order a NB series housing, replace NA with NB in the codes shown above. Example:  
NA B11000 → NB B11000

It is not allowed to install VN CM\*\*\*\*\* connectors on technopolymer housings

**VN AA0CP** Unidirectional roller lever  
**VN AA0CV** Adjustable angled roller lever  
**VN AA0EB** Plunger with M12 threaded fitting  
**VN AA0EE** Plunger with M12 threaded fitting, external gasket  
**VN AA0FB** Roller plunger with M12 threaded fitting  
**VN AA0GB** Plunger with Ø 6 mm ball  
**VN AA0HB** Flexible rod with plastic tip  
**VN AA0HE** Flexible rod  
**VN AA0HH** Flexible rod with needle

**VN A00KG** Metal swivelling lever, profiled, adjustable, with roller Ø 20 mm  
**VN A00KH** Metal swivelling lever, profiled, adjustable, with roller Ø 20 mm  
**VN A00KP** Metal swivelling lever, straight, with extended adjustment and roller Ø 20 mm  
**VN A00LB** Metal swivelling lever with stainless steel rod 3 x 3 x 125, adjustable  
**VN A00LE** Metal swivelling lever with stainless steel rod Ø 3 x 125, adjustable  
**VN A00LH** Metal swivelling lever with glass fibre rod Ø 6 x 200, adjustable  
**VN A00LL** Metal swivelling lever with flexible rod, adjustable  
**VN A00LP** Metal swivelling lever with porcelain roll, adjustable

## M12 or AMP connectors

**⚠ Important:** Always check that the applied electric load is within the voltage and current limits defined for the connectors. See tables on page 118 and 128.
